Access and Use: The Otis Historical Archives is committed to providing open access to its collections as much as possible within the limits of privacy and confidentiality. Some of the records may contain restricted material. Access to this collection is at the discretion of the Otis Historical Archives and material contained within the records may be subject to review before access is granted.

Series/Scope and Content Note: This artificial collection of medical art (completed primarily by Museum staff) includes illustrations from the nineteenth century, World War I era, the interwar period, and World War II through the 1960s. The collection is organized into three series based on chronology. Within each series the illustrations are organized by the individual artists represented. A wide range of military medicine subjects include battlefield wounds, anatomical and pathological studies, hygiene and preventive medicine measures, and surgical techniques.

SERIES 001: PRE-WORLD WAR I ERA ILLUSTRATIONS

This series, limited to Box 001, consists of two 19th-century caricatures by Milton and Williams, and four post-Civil War medical illustrations by two unknown artists and Schultze.

SERIES 002: WORLD WAR I ERA ILLUSTRATIONS

This series comprises the bulk of the collection (Boxes 001-017) and includes several hundred illustrations from the following artists: Bower, Brainard, Chesney, Chickering, Conrath, Drake, Edwards, Ewald, Faber, French, Goodwin, Handforth, Hier, Meyer, Moncure, More, O'Brien, Owens, Perry, Prior, Richardson, Schwarz, Stocking, PBS, JFS, and Wild. Box 018 contains single pieces by Butler, Lambert,

Mayer, Summers, Thayer, and Waters. Boxes 019-022 include nearly 100 illustrations by unknown artists.

SERIES 003: POST-WORLD WAR I ERA ILLUSTRATIONS

This series (Boxes 023-032) includes a series of illustrations by Burrage, Cleare, Dorne, Gibbons, Jex, Jones, Netter, Simpkin, and Wilson. Boxes 031-033 contain single pieces by Askey, Childs, Day, Hadden, Hollis, Potter, Smith, and Sturm along with a limited number of illustrations by unknown Artists.

Box 033: Elementary Sanitation for Chinese

Includes 80 original drawings and photostatic copies, with English and Chinese translations of captions, for a booklet designed to promote sanitary behaviors and public health practices. The booklet tells the story of Lee, a Chinese young man who is “healthy because he takes good care of himself.” The story promotes frequent doctor’s visits, personal hygiene, preventive health practices, and general sanitation. The images below provide a representative sample of the contents.
